Day 3 6th April 2022

Heritage Boat and Steam Train Experience

This morning travel to the town of Enkhuizen. From here, you can see the remarkable Houtribdijk, a 17- mile dyke and dam completed in 1975. In Enkhuizen, we board the museum ship 'Friesland' for a relaxing cruise. There's free time for lunch before we climb aboard the 'Museumstoomtram', a charming, historic narrow gauge, steam-hauled train that travels for 20km through the bulb fields to Hoorn. The train stops at stations along the route, each a little museum in its own right, with views of windmills and the fields of tulips.
